RIGGING & TESTING SOLUTIONS

Marine & Industrial has provided the lifting and rigging industry premium brand products and first-class customer service since 1975. As an innovative supply leader, Marine & Industrial has developed a reputation for well-trained employees, efficient safety standards and seamless operations that supply our clients with the best service in the industry.

RIGGING & LIFTING

Marine & Industrial offers high-quality lifting equipment from top industry brands, allowing for successful and efficient applications. We fabricate custom slings, tested and ready for use, as well as a variety of rigging hardware. Some of our rigging & lifting equipment includes:

- Hoists
- Wire Rope
- Tie Down Assemblies
- High Performance Rope
- Chain Slings
- HMPE Slings
- Synthetic Slings
- Wire Rope Slings
- Twin Path Slings
- Rigging Hardware
- Spreader Bars

For more information about how Marine & Industrial can provide solutions to your lifting and rigging needs, call us at 800-628-4870 or visit www.marineandindustrial.com.

OFFSHORE/ONSHORE

We value the relationships we have built with our clients, and understand the important role we play in their industries. Marine & Industrial is committed to providing safe and high-quality equipment to our clients. Our service representatives are available 24/7 to fulfill any demands, including:

- Rigging needs
- Lifting solutions
- Testing services
- Inspection
- Premium products

RIGGING

Marine & Industrial offers high-quality rigging equipment, allowing for successful and efficient applications. Our rigging products come from top industry brands to ensure catered solutions. We fabricate custom rigging slings tested and ready for use, as well as a variety of rigging hardware and fitting. Our certified rigging inspectors are available for onsite inspection to determine if equipment is safe and ready to use. Some of our rigging equipment includes:

- Chain slings
- Hoists
- Ratchet assemblies
- Tie downs
- Spreader bars

LIFTING

Marine & Industrial carries top-brand equipment for effective and efficient lifting solutions. We provide lift tests on location for your convenience and a trained technician to ensure each lift is safe and efficient. We provide a number of lifting products including:

- Chain slings
- Polyester round slings
- Synthetic slings
- Twin path slings
- Slingmax products
- Rigging hardware
- Engineered lift plans
- Eng/Design
- Lifting devices

TESTING

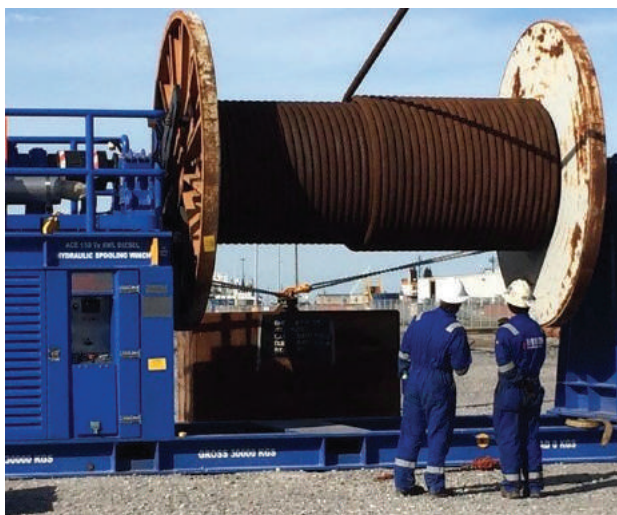

Marine & Industrial provides a variety of testing services to ensure safety and accuracy in our clients' projects. One of our experienced technicians can assist you with any onsite proof testing as well. Our testing services include the following:

- Spooling
- Inspection
- Testing
- Rental rigging
- 1500 te test bed

MIS Offshore provides a variety of high-quality rigging, lifting and testing equipment and services for safe, successful and efficient applications. We are happy to provide an experienced technician to assist you in any testing or inspection requests you may have as well. Our certified rigging inspectors are available for on-site inspection and repair to determine if equipment is safe and ready to use. We provide load tests on location for your convenience and a trained technician to ensure each lift is safe and efficient.

For more information about how MIS-Offshore can help you with your rigging and testing needs, call us at 800-628-4870 or email info@MIS-Offshore.com.

PRODUCTS & SERVICES

SERVICES:

- Wire rope/umbilical spooling
- Rigging inspection and repair
- On-site spelter socket pouring
- Water bag proof load testing
- Modular weight proof load testing
- Pad eye testing
- Wire rope pressure lubrication
- Engineered lift planning
- Rigging training
- Mag particle (MT/PT)
- Dye penetrant testing
- Proof test and break testing
 - 1500 te test bed
- Non-destructive rope examination (magnetic rope tester)
- Online certificate database
- Mobile chain fall testing unit

EQUIPMENT:

Spooling Machines:

- 4.5 te capacity
- 22.75 te capacity
- 50 te capacity constant tension
- 150 te capacity constant tension
- 22.7 te reel stand

Water Bags:

- 12 te
- 20 te
- 35 te
- 50 te
- 100 te
- Life boat bags

Modular Test Weights:

- 125 te total weight
- Trees, Baskets

Pad Eye Tester:

- 10 T
- 30 T
- 50 T
- 200 T

Wireless Load Cells:

- 6.5 te
- 12 te
- 25 te
- 50 te
- 100 te
- 150 te
- 250 te
- 500 te load shackle

Magnetic Rope Tester for nondestructive rope examination 24mm to 120mm

1500 te Test Bed for proof load

250 T Spreader Bar vertical testing unit

Wire Rope Pressure Lubricant

- 1/8" to 4 1/4" diameter

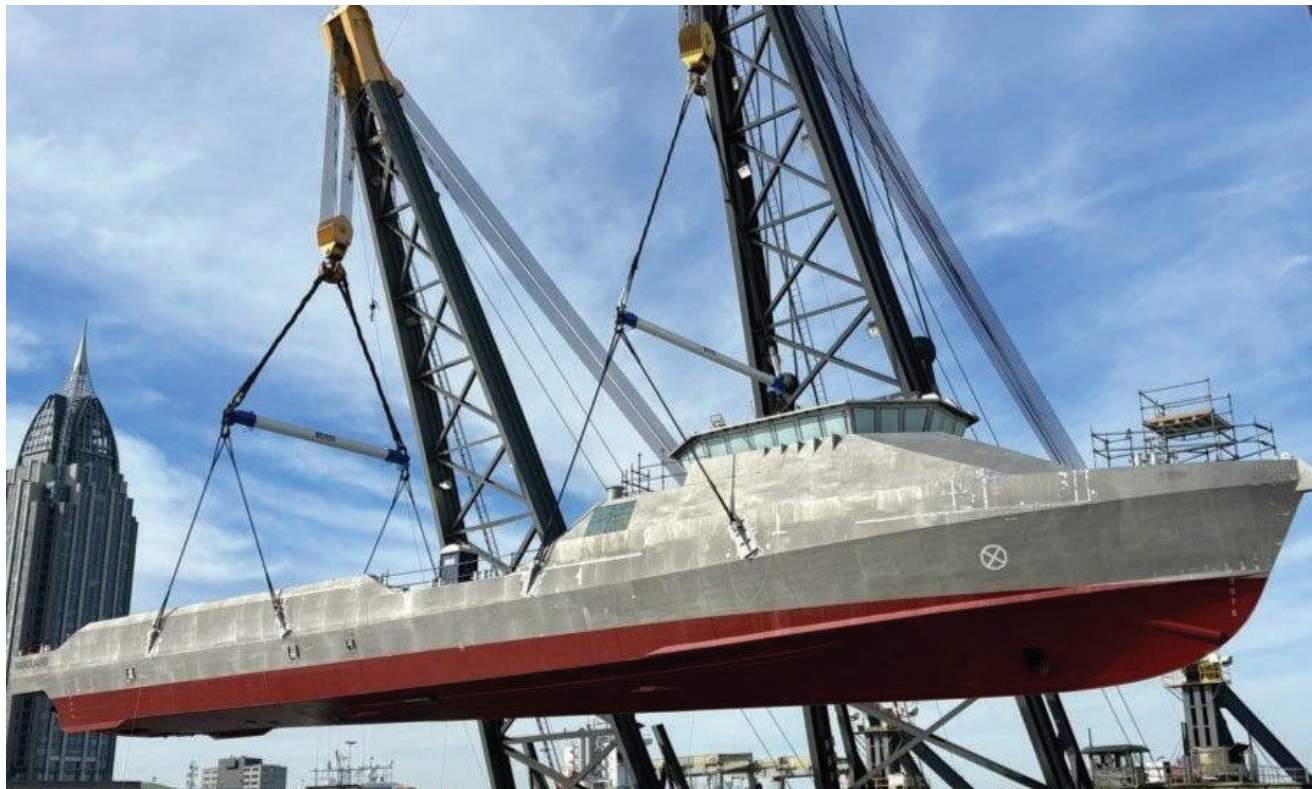

Spreader Bars:

- 25 te, 35 te, 85 te, 120 te end caps
- 300 te, 600 te, 800 te end caps
- 50 te and 150 te adjustable bars
- 300 te adjustable center-of-gravity lifting beam
- Rental rigging shackles 25 te to 1550 te, slings, master links

Benton Solutions provides custom solutions for challenging lifting problems. We will design, build and test custom products to equip our customers with the most efficient and safe method of lifting for any specific situation. By leveraging our technical knowledge, we solve problems and create solutions that are optimal for our clients' needs.

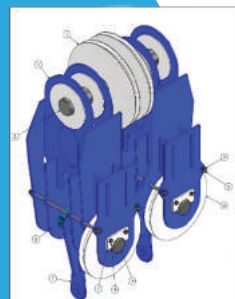

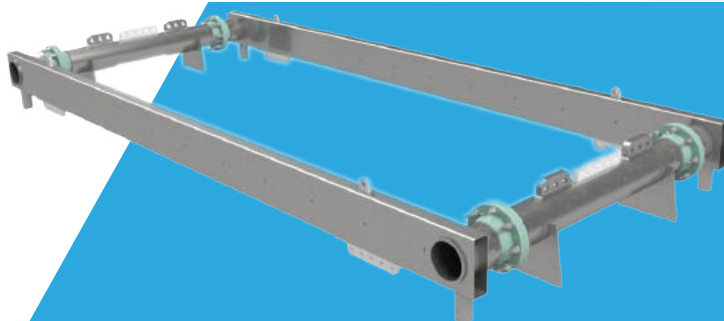

LIFT SYSTEM SOLUTIONS

Benton Solutions utilizes our top-level products to assemble lift systems for any rigging need. These systems are designed specifically for the application taking into account load requirements, obstructions and hook height. They can be prepackaged to be quickly assembled in the field or fully assembled on site with the use of our certified technicians.

For more information about how Benton Solutions can help you with your lifting needs, call us at 800-628-4870 or visit www.marineandindustrial.com.
